2.1.3

0f448dc

The 2.1.3 release is a bug fix release of 2.1.x (Jakarta EE 10).

Following changes are included:

- [#631](#): Session.getService does not use proper classloader in OSGI environment
- [#665](#): Jakarta Mail erroneously assumes that classes can be loaded from Thread#getContextClassLoader
- [#694](#): SharedFileInputStream should comply with spec
- [#710](#): Cannot parse messages without a session
- updates dependency on Jakarta Activation API jar to version [2.1.3](#) and angus-activation used by tests to [2.0.2](#)

New Contributors

- [@SeongEon-Jo](#) made their first contribution in [#695](#)
